

**\* MULTICONNECTOR COLD WELDED**

(21)

Diagram illustrating a Multiconnector Cold Welded system. The system consists of two main sections connected by a central pipe. The left section includes a 00331 connector, a 00331/MH connector, and a 00331/MH connector. The right section includes a 00331 connector, a 00331/MH connector, and a 00331/MH connector. The central pipe is labeled "TEST" and "One Way Valve". The pipe is made of "05045" PVC-755H, 2.5x4.1x 100 cm. The distance between the two main sections is 5 cm. The system is connected to a "Sterile Bag" and a "0.5192" line.
